About Construct Multi-Storey Building Muhurat

The Construct Multi-Storey Building Muhurat is selected to ensure a safe, stable, and successful beginning of high-rise or multi-level building construction. Such structures require strong foundations, precise planning, and long-term durability. Initiating construction at an auspicious Muhurat helps align the project with favorable planetary energies, supporting safety, structural strength, smooth execution, and long-term usability.

Important Guidance

Multi-storey building construction Muhurat is calculated based on planetary positions, Moon strength, Nakshatra, Tithi, and Vastu principles applicable to vertical structures. While the recommended Muhurat windows are astrologically beneficial, soil testing, design approvals, material readiness, and regulatory clearances should also be taken into account. If delays occur, selecting the nearest auspicious Muhurat is advised.

Why These Dates Are Recommended

- Favorable Moon placement supports stability, balance, and structural integrity.
- Auspicious Nakshatra and Tithi combinations free from major construction doshas.
- Planetary alignments that promote safety, longevity, and uninterrupted progress.

Precautions

- Commence major construction work strictly within the recommended Muhurat window.
- Avoid Rahu Kaal, Yamagandam, Amavasya, and other inauspicious periods.
- If the selected date is not feasible, consult for alternative auspicious timings.
